

I have been a K-Love listener in California, Nevada and now in Texas.  
I listen to 91.3 in San Antonio daily. I feel the broadcasting of K-Love in our country today is vital.  
Not only does this station encourage and uplift its listeners, but it also promotes family values and togetherness.  
Something our country desperately needs in today's world.  
I believe K-Love provides a public service to anyone that should just happen to listen.  
What a blessing this station is to my family and friends.
